Shattering 44 illusions. *11 Days in May* is the story of one man's quest to answer the great questions: who am I, why am I here and where did I come from? After breaking his neck, leaving his body, and returning, JD Messinger experienced prophetic visions and insights. Over the course of 11 days, he takes us on a journey with a mysterious friend. The two bicker like brothers but converse like sages as they investigate the answers to 36 of life's most important questions. Some of the questions include: who makes things, what is a thought, what is near death, what is a soul, what is a day, is time relevant, what is love, sex, war, truth, purpose, change, science, religion and more. The objective of the 36 parables is to help shatter the illusions, an idea or perception that people accept as true based on a mistaken or false belief. The illusions keep us from discovering our way, our truth and our light. In total, there are 44 illusions discussed in the book.
