Thirteen years after his death, Andy Warhol's art is more dominant and omnipresent than ever before. In particular, his serial works—the *Campbell's Soup Can*, *Jackie*, *Marilyn*, *Mao*, and others—have been reproduced everywhere and have profoundly influenced our perception and thinking about mass culture. This striking book is a highly original survey of Warhol's entire creative output.

The book begins with an overview of Warhol's work by Ernst Beyeler and Georg Frei that ranges over the *Campbell's Soup Can* pictures, Warhol's first attempt at using a succession of images based on the same motif in various paintings; the early silk screen prints (portraits of such teenage idols as Elvis Presley, Warren Beatty, and Natalie Wood); the *Disaster* pictures, which reveal the dark side of American consumer positivism; and the later works, including the *Last Supper* in which Warhol celebrates his own immortality. Peter Gidal then discusses two of Warhol's single works, the monumental *Saturday's Disaster* and the thirty-minute film *Blow Job*. And Edward Sanders examines some of Warhol's images in the context of his life and times. Together the text and copious illustrations are a magnificent testimony to Warhol's contributions to the world of art.
