Epistemología del Psicoanálisis (Spanish Edition) Alfonso Herrera

Freud forjó dos conceptos -psicoanálisis y metapsicología- para nombrar una y la misma entidad de conocimiento. El psicoanálisis le da especificidad a la metapsicología en la valoración de su incidencia clínica, verificando sus principios metodológicos, su rango de competencia y los límites de su campo explicativo. A contrapelo, la metapsicología define el espectro categorial del psicoanálisis al especificar sus postulados y las relaciones lógicas o cronológicas que rigen sus enunciados. En respuesta al descrédito de orden epistémico que las disciplinas oficiales dispensan al corpus freudiano, el presente trabajo sostiene que es posible fundamentar la noción de una epistemología del psicoanálisis.
