The Great War: The North American Front H. Will Pasto

In 1914, while Mexico was in the grips of its Revolution, an incident occurred prompting the United States to interfere. The United States invaded and captured the port city of Veracruz on the Gulf coast. In the great scheme of things, that invasion had little effect. The United States held the city for seven months, but the revolution continued off and on for another fifteen years until it finally wound down due, for the most part, to simple war weariness. But, what if it happened differently? What if, instead of the continued squabbles, the Mexicans decided they had enough of foreign powers meddling in their internal affairs? What if the Mexicans laid down their revolutionary arms and became a cohesive nation early, and what if they then started to build their military to prevent another invasion? Would Mexico been strong enough to hear the siren call on January 16, 1917 when Arthur Zimmerman, the Foreign Secretary of German Empire, asked Mexico to join the Central Powers? Had Mexico believed they were strong enough, then would they have joined the war? These questions are addressed and answered in *The Great War, The North American Front*
