This interactive Science Lab Kit teaches kids everything they need to know to become "energy scientists" capable of using, harnessing, and saving precious energy. The fully illustrated manual is packed with fun activities and comes with an exciting range of components to use in 40 different experiments: magnets, pipette, balloons, copper strips, crocodile clips, glow stick wire, glow-in-the-dark sheet, and three sheets of card templates. From these simple objects, kids can design a hovercraft, build a simple electric motor, make a wind speed detector, and much more. Energy Lab features brightly colored graphics, easy-to-follow directions, and sturdy packaging for durability.
