In summer, Europe's Arctic north transforms into a vibrant green land of expansive forests, rushing rivers, and glassy lakes. The dogsleds and snowmobiles are traded for kayaks and mountain bikes as everyone heads outdoors to enjoy the warmth and never-ending sunlight. This book, a followup to the Guide to Lapland and Northern Norway in Winter, will guide you through your own trip around the Arctic regions of Norway, Sweden, and Finland. From sharing what it's really like to sit under the midnight sun (it really does make you feel more energetic!) to hints on where you might spot a wild bear (safely!), it will provide you with all the crucial information you need to know to have the best trip possible. Be warned though—reading it will inspire you to jump on the next plane heading north!
