The Psychology of Green Organizations

The Psychology of Green Organizations

As we move further into the 21st century, the global challenges and consequences posed by climate change are becoming increasingly apparent. Although organizations are considered significant contributors to climate change, they also have the potential to positively affect it through their employees. As a result, understanding how employees' pro-environmental initiatives can positively affect climate change has increasingly become the focus of inquiry among organizational researchers.

The Psychology of Green Organizations brings together a number of these researchers to review leading research in different areas of organizational environmental sustainability. In so doing, this book consolidates available knowledge on employees' contributions to corporate environmental initiatives, stimulates future empirical research on this topic, and provides recommendations for how organizations can improve their environmental performance through their employees.

Many chapters provide case examples of environmentally sustainable organizations to illustrate lessons gleaned from research. Chapters in part 1 provide a conceptual, theoretical, and methodological foundation for research on workplace pro-environmental behaviors, while those in parts 2 and 3 review research on the promotion of workplace pro-environmental behaviors at the individual and organizational levels, respectively. Part 4 explores one organization that has been successful at promoting employees' environmental initiatives, highlighting how both organizational and individual factors can be used to effect major changes in corporate environmental sustainability.

From reader reviews:

Ronald Castaneda:

Reading a book for being new life style in this year; every people loves to examine a book. When you learn a book you can get a large amount of benefit. When you read textbooks, you can improve your knowledge, simply because book has a lot of information into it. The information that you will get depend on what kinds of book that you have read. If you want to get information about your analysis, you can read education books, but if you want to entertain yourself you are able to a fiction books, this sort of us novel, comics, as well as soon. The The Psychology of Green Organizations provide you with new experience in studying a book.

Cindy Moats:

Many people spending their time by playing outside with friends, fun activity using family or just watching TV 24 hours a day. You can have new activity to invest your whole day by examining a book. Ugh, think reading a book can actually hard because you have to use the book everywhere? It okay you can have the e-book, getting everywhere you want in your Cell phone. Like The Psychology of Green Organizations which is getting the e-book version. So , try out this book? Let's see.

Steven Ellison:

In this era which is the greater particular person or who has ability to do something more are more valuable than other. Do you want to become one of it? It is just simple method to have that. What you must do is just spending your time very little but quite enough to get a look at some books. One of several books in the top collection in your reading list is actually The Psychology of Green Organizations. This book which is qualified as The Hungry Hills can get you closer in turning into precious person. By looking way up and review this e-book you can get many advantages.

Robin Adams:

As a scholar exactly feel bored for you to reading. If their teacher requested them to go to the library in order to make summary for some publication, they are complained. Just very little students that has reading's internal or real their pastime. They just do what the teacher want, like asked to the library. They go to presently there but nothing reading very seriously. Any students feel that reading through is not important, boring as well as can't see colorful photos on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore this The Psychology of Green Organizations can make you really feel more interested to read.
