**The Titanic Plan** Michael Bockman, Ron Freeman

TRUE:

100 years ago J. Pierpont Morgan and a group of Wall Street bankers took direct control of the American economy.

100 years ago radical firebrands were conspiring to create a workers revolution.

100 years ago the American government was paralyzed by a bitter political struggle.

100 years ago a great ship sank on her maiden voyage.

They said it was an accident. They said it was an error of judgment.

They were wrong.

=====

On October 16, 1907, the American financial system stood on the brink of collapse after one of the largest investment firms failed because of speculative trading. There was no Federal Reserve to help, no government agencies to prop up the failing institutions. Seeing this as a defining crisis, J. Pierpont Morgan stepped in and organized a consortium of bankers and financiers to support the ailing system until the crisis passed. When it finally did, Morgan vowed that he would do everything in his power to make sure such a calamity never happen again.

Set between the years of 1907 to 1912 and inspired by true events, The Titanic Plan tells the story of the many factions of American society as they struggled for power in one of the most dynamic times in the country's history. The major characters are the giants of that era: capitalists J. Pierpont Morgan, John Astor, William Vanderbilt; labor leaders Big Bill Haywood and Emma Goldman; and Presidents Theodore Roosevelt and William Howard Taft.

At the center of it all is Captain Archibald Butt, the Military Aide and close confidant to both Roosevelt and Taft. Captain Butt becomes involved in a deepening intrigue that leads him from the White House, to the anarchist circles in Greenwich Village, to the shadowy halls of the newly created FBI, and finally, to the parlors of the rich and powerful. Amid double-crosses and shifting alliances, Archie Butt witnesses the formulation of a brilliant and dangerous power grab that will lead to the first great disaster of the 20th Century.
