Find out how these men and women shaped Indian civilization and made it richer with their skills and their wondrous innovations. From the first storytellers who wove tales of great imagination and then passed them down generations, to skilled workers who discovered how to weave cotton or created marvelous works of art like the Chola bronzes; from the farmers who fed everyone and even adopted new seeds and crops that have become staples now to poet rebels like Kabir and Guru Nanak who changed society with love and songs.

Concise yet filled with relevant details and accompanied by attractive colour illustrations, the Exploring India series will make history fascinating and unforgettable for every reader.
