As Rebecca continues her journey of discovery Don introduces her to the crop and switch but in order for her to experience the cane she must once again become schoolgirl Becky and report to the headmaster. The caning leaves her wanting more and Don tantalizes her with the promise of additional forms of discipline. First, though, she must be prepared by becoming Babydoll and, as the story progresses, Rebecca's masochistic tendencies and increasing desire to please Don is revealed. The Spankee series of short stories follows the erotic adventures of Rebecca as she evolves from curious housewife into a submissive under the guidance of Don. The reader will experience how Don establishes the requisite trust to take Rebecca from one level to the next while she believes he is doing it at her request. The care he takes and the attention he gives her every time he takes her to a new threshold enables her to expand her limits, and upon the discovery of her natural submissive nature Rebecca realizes her desires are actually needs. While these are very much adult stories with quite explicit detail, none of it is out of context with the stages of Rebecca's development and the reader will understand precisely what leads up them and how Rebecca is so willing to engage in activities that she would have previously considered unthinkable.
