**The sexual tension is palpable; the erotic path they're on is inevitable.**

Haylee Holloway has experienced more grief than a twenty-two year old should have to endure. When she moves to LA for a fresh start and takes a job as an assistant for an advertising company the last thing she expects is to have to step in last minute during a photo shoot as the model.

Her bikini line and weight are suddenly open topics of discussion, and a client's million dollar campaign is hanging in the balance. To cap it off, the multi-millionaire, gorgeous owner of the company shows up and takes charge.

Josh Singer, the owner of Gamble Advertising is private, intense, and hard to read. His voice is sexy, his eyes are smoldering and when he learns of Haylee's goal to save money for law school, he makes her an offer she can't refuse:

To move to New York City and work for him directly as his assistant.

Haylee's dilemma: how does she travel the world with a gorgeous boss whose voice alone conjures up a romantic fantasy and not completely make a fool of herself?

Frustrated with Josh's mixed signals, Haylee finally puts it all on the line. Blurring both their professional and personal lives can they keep things temporary as planned or will they both realize some things weren't meant to end?

*This book has flavors of romantic comedy, chick lit and a true contemporary romance novel all in one. Told in first person, it's about finding romance where you least expect it with the belief that humor, self-discovery, and love really can conquer anything.*

*Full Length Standalone book with no cliffhanger. First book of the "Something Series"*

**Recommended for mature readers due to situations of language, and sexual content.**
