Medusa, synonymous with the word monster, is one of three Gorgons who possess the power to petrify any living creature. With bronze claws, a mane of venomous snakes and deadly eyes that can snatch the life from anyone who look upon her, Medusa was ancient Greece's weapon of mass destruction. Mythology briefly told the story of the life, plight and death of the Gorgon. However, it was a partial account of a being that lived over three thousand years ago. In truth, Medusa is alive today, in the 21ST century! From the shadows of obscurity, she has risen to assume the guise of Madame Cynthia Petrakis, reclusive billionaire, philanthropist and humanitarian. One person, archeologist Jeremiah Clarke, unwittingly stumbled upon her secret. It was a discovery that nearly ended in tragedy, yet became the foundation of a new and true friendship. Few know of Medusa's story and now she has decided to reveal it to one man. This is Herstory!
