In book three of Wildfires: Morgan is a shy librarian with fantasies of what it would be like to have the sole attention of three strapping firemen directed toward her. Of course it isn't possible for her, but when you are surrounded with books in and out each day, dreaming becomes a part of everyday life.

Lex, Vince, and Storm have a plan to get the woman they want more than their next breath. They even have a group of old biddies on their side to help with the plan. What the three men learn is no plan is fail proof but...when you want something bad enough, not a blizzard, a firebug, or a misguided deranged stalker will keep them from having the woman they want. Now they just need her to cooperate and to realize life with them would be better than without them.
