What causes a flash of lightning? How can you use a lemon to create an electric circuit? Which type of electrical circuit powers my MP3 player? How does electricity get from a power station to my home? Are there electric signals flowing through your body right now? This title explores the nature of electricity, including how it behaves and how it is generated. The book looks at different types of electrical circuits and ways in which electricity can safely and efficiently provide power to our homes. It also examines exciting new ways in which electricity may change the world around us.
