Sasquatch Moon (The Moon Watchers Book 1) R. Stone

It's the tribal legends of the Coyotes (CYOT) Tribe that holds the key to the question that has intrigued mankind for years, "Do the Sasquatch exist?" As the history of the tribe unfolds they must ask themselves if they can stand against whatever creatures are killing the residents of Chelan Falls and the Reservation.

The gruesome deaths remain unsolved and the victim's bodies are the only clues that Sheriff Jack Talking-Crow and Deputy Seth Cole have to go on. Who are the blood thirsty creatures responsible? Mountain lions, wolves, coyotes, zombie beasts, a cult and the Sasquatch have all made the headlines!

Solving the killings is Deputy Seth Cole's priority, that is, if he can stay focused on the investigation. Ever since meeting Sage Running-Bear he can think of nothing else but her and between her, his job, and fighting off his old girlfriend Lauren, he has little time to spare.

Chief Running-Bear, Sage's father will do anything to keep her away from Seth, but why? The answers to these questions will surprise you. Be prepared to believe in things that you would normally not believe in as you experience Chelan Falls and its residents in a way you can't imagine.
