American Wheels, Chinese Roads: The Story of General Motors in China

Michael J. Dunne

American Wheels, Chinese Roads: The Story of General Motors in China Michael J. Dunne

How could one company—General Motors—meet disaster on one continent and achieve explosive growth on another at the very same time?

While General Motors was hurtling towards bankruptcy in 2009, GM's subsidiary in China was setting new sales and profit records. This book reveals how extraordinary people, remarkable decisions and surprising breaks made triumph in China possible for General Motors. It also shows just how vulnerable that winning track record remains.

No small part of GM's success in China springs from its management of shifting business and political relationships. In China, the government makes the rules for—and competes in—the auto industry. GM's business partner, the City of Shanghai, is both an ally and a competitor. How does such an unnatural relationship work on a day-to-day basis? Where will it go on the future?

General Motors also engages in constant battles with other global and Chinese car makers for the hearts of demanding Chinese consumers. Dunne gives us rare glimpses into the mindsets and behavior of this new moneyed set, the world's newest class of wealthy consumers.

China is already the number one car market in the world. During the next ten years, China will export millions of cars and trucks globally, including to the United States. *American Wheels, Chinese Roads* presents readers with fascinating illustrations of what to expect when Chinese cars, companies, and business people arrive on our shores.

The Enjoyable set up here cannot be questionable, like treasuring beautiful island. So do you still want to miss that? Find this book and read it from currently!

Billy Migliore:

As a pupil exactly feel bored for you to reading. If their teacher requested them to go to the library as well as to make summary for some reserve, they are complained. Just small students that has reading's soul or real their hobby. They just do what the educator want, like asked to the library. They go to generally there but nothing reading critically. Any students feel that studying is not important, boring as well as can't see colorful photos on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore this American Wheels, Chinese Roads: The Story of General Motors in China

can make you really feel more interested to read.
