Occupational Therapy and Rehabilitation Toolkit - Comprehensive Medical Encyclopedia with Treatment Options, Clinical Data, and Practical Information (Two CD-ROM Set) U.S. Government

This up-to-date and comprehensive set of two CD-ROM discs provides a superb collection of authoritative documents on the subject of occupational therapy and rehabilitation. After a serious injury, illness or surgery, you may recover slowly. You may need to regain your strength, relearn skills or find new ways of doing things you did before. This process is rehabilitation. Rehabilitation often focuses on: Physical therapy to help your strength, mobility and fitness; occupational therapy to help you with your daily activities; speech-language therapy to help with speaking, understanding, reading, writing and swallowing; treatment of pain. The type of therapy and goals of therapy may be different for different people. For example, an older person who has had a stroke may simply want to dress or bathe without help. The goal of younger person who has suffered a heart attack may be to return to work and normal activities. For patients, practical information is provided in clearly written patient education documents. For medical professionals, doctor reference tools and texts have detailed technical information and clinical background material. There is no other reference that is as fast, convenient, and portable - everything you need to know, from the federal sources you trust. This thoroughly researched collection presents vital information from many authoritative sources: Food and Drug Administration (FDA), Centers for Disease Control (CDC), National Institutes of Health (NIH) and others. In addition to the comprehensive disease-specific coverage, this disc set also includes our Medical Encyclopedia, a \$19.95 value! The Encyclopedia presents a collection of official documents about a wide range of medical topics, diseases, illnesses, health and wellness. There is vital information from the National Institutes of Health (NIH), the Centers for Disease Control (CDC), National Cancer Institute, and more. Topics covered include: major diseases, including cancer, heart and vascular disease, stroke, blood diseases and disorders, lung diseases, and neurological disorders such as dementia and epilepsy * CDC Health Topics A to Z, Foodborne Illnesses, Infants and Children, Injuries, Occupational Health, Older Adults, Women * CDC Travelers' Health - Destinations, Vaccinations, Diseases, Mosquito, Tick, Food, Water, Clinics, Yellow Book, Children, Airplanes, Cruise Ships, Special Needs, Relief Workers * Dietary Guidelines * NIH A to Z from abnormalities to X-rays. Since navigating the Internet to find additional non-governmental medical information can be confusing, we've also provided our exclusive "Guide to Leading Medical Websites" with updated links to 67 of the best sites for medical information! Built-in weblinks let you quickly check for the latest clinical updates directly from the government and the best commercial portals, news sites, reference/textbook/non-commercial portals, and health organizations.
